

Hi Tom,

I don't know how you worked your magic but Corey came by on Saturday to complete the inspection and said he would have paper work to me via email in a week.

He thought it would take two weeks to get you the ok.

So if you have room for my project after that, please put me in the schedule. He said he couldn't under the Mass Save contract ask you to fill that one bay between the living room ceiling and the roof, so let me know if there are additional costs I owe you directly.

Thanks again. I know you went out of your way to make this happen and I really appreciate it. I am so psyched!!!!!! One happy camper.

Best,  
MJ
